iPad Concept
Graphic panel side mounting kit
Assembly Instructions

Side mounted panel system - Screw Clips

1

Slide screw clips down channel/s of post from which the rigid graphic panels are to be displayed. Secure in position by tightening internal cross-head screw.

2

Place aluminium plate on top of post aligning the 4 holes to threads. Position collar mount of iPad holder over aluminium plate, align holes, insert 2 off fixing screws, and tighten to secure assembly.

3

Slide rigid graphic
panel/s into clip channel
and tighten grub screws
to secure in position.
